GROWTH

AJS Adfluence Pvt Ltd., hereinafter referred to as AJS. The company was established in 2019 in Coimbatore, the capital of Tamil Nadu, India. The factory is located in the port city, which is convenient for sea transportation and import. The factory covers an area of 4000 square feet, mainly engaged in the trade of advertising materials such as signs, Luminous sign light boxes, decoration materials and advertising material manufacturing equipment. Now it is the designated supplier of major mobile phone brands in India, and has become the upstream leading enterprise in India's advertising industry.

AJS produces high-quality raw materials in China by introducing equipment with China's leading technology, and efficiently produces finished products that are ahead of India's local technology by cultivating a large number of local teams. Combined with China's domestic supply chain, the scale of centralized purchase enables AJS to have abilities to provide promotional products, new luminous materials etc. to support the main mobile phone brands. After six years of deep cultivation in the industry, the overall business development trend is great, and the peers are generally affected by the epidemic.

What is Signage?

Graphic designs, as symbols, emblems, or words, used especially for identification or as a means of giving directions or warning.

Use of Signage

The main purpose of signs is to communicate, to convey information designed to assist the receiver with decision-making based on the information provided.

2021

Our Projects

AJS Made the Big SS Signage to Delta in 2021 October in Bangalore. The Signage made with SS and Power coated. This type of signage are non lighted. The total Height of the logo is around 14 feet and the length is 50 feet. We made three logos, one is at the West Side and another one at eas and north.

Our Projects

2022

Pegatron Corporation is a Taiwanese electronic Manufacturing company that mainly develops computing, communications and consumer electronics for branded vendors.

In the year 2022 AJS Made an SS Signage with reverse light to Pegatron company in Mahindra city Chengalpattu. It's a 4 feet letters signage made with 304 SS and powder coated. Backside usevd imported strip light. And we made a front name board made with SS Sheet and SS tubes. Letters are powder coated and pasted with strong adhesive.

PEGATRON

2022 & 2024

Our Projects
